

## MODULAR CUBICLE SYSTEMS

Unleash The Power Of Indestructible Surfaces With Vitreous Enamel Solutions

## MODULAR CUBICLE SYSTEMS

The Vitraflex Toilet, Shower, and Change Room system epitomizes durability, versatility, and flexibility, providing an optimal solution for maximizing space utilization. With its adaptable design, this system can accommodate an unlimited range of layouts and applications, ensuring seamless integration into various environments.

The enamel surface of this system is backed by a 25-year conditional guarantee, ensuring long-term durability and peace of mind for users.

Comprising a Vitreous Enamel Steel Surface paired with a natural anodized aluminum beading, the system is designed to withstand the rigors of daily use.

We work closely with you to design efficient bathroom layouts. Our customized toilet and shower cubicles, available in various finishes, are tailored to your specifications. From design to installation, we oversee the entire project for a seamless experience.

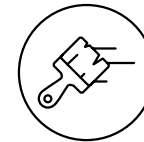

## TOILET CUBICLES

Our toilet cubicles offer innovative space-saving solutions and unparalleled flexibility in adapting to various layouts. Engineered with the Vitraflex™ System, featuring a Vitreous Enamel Steel finish, they ensure exceptional durability, especially in high-traffic areas such as shopping centers, schools, hospitals, and factories.

The Vitraflex™ System presents a versatile range of options beyond Vitreous Enamel Steel, including wrapped, matte, super high gloss, and wood finishes, providing comprehensive choices to suit diverse preferences and design requirements.
